THE TELEGRAPH SERVICE OF THE DEMOCRAT-SENTINEL IS BY THE ASSOCIATED PRESS.

Democrat Established 1869 Vol. XXXIX.  
Sentinel Established 1880 Vol. XXVI.

SEDALIA, MISSOURI, MONDAY EVENING, AUGUST 19, 1907.

VOL. 1. NO. 221 PRICE FIVE CENTS

## TO SETTLE THE STRIKE

OF MISSOURI PACIFIC COPPER-  
SMITHS, TINNERS AND  
PIPEMEN.

## A MEETING IN ST. LOUIS TUESDAY

Several Labor Organizations Will En-  
deavor to Bring About a Settle-  
ment, But Success By No  
Means Assured.

The strike of coppersmiths, pipe-  
men and tanners inaugurated at the  
Missouri Pacific shops May 15 has  
not changed in any particular since  
that time.

The union men who went out be-  
cause an increase of two cents an  
hour was refused them believe that  
their demands will yet be granted,  
and to that end representatives of  
that and other labor organizations at  
the shops are to have a conference  
with George W. Smith, superintendent  
of machinery on the Missouri Pa-  
cific system, in St. Louis tomorrow,  
with a view to settling the trouble.

In the meantime non-union men fill  
all the places in the coppersmith de-  
partment, and guards are still main-  
tained at the shops, both day and  
night.

When the strike was inaugurated  
the non-union men boarded in close  
proximity to the shops, but now sev-  
eral of them live down town, and go  
to and from their work on the shop  
train, although they are left "severely  
alone" by the union men employed  
in the other departments.

Many of the men employed in the  
local shops fear a settlement will not  
be effected at the St. Louis confer-  
ence. On the contrary, they believe  
the company will insist on conducting  
an "open shop" so far as the tanners,  
pipemen and coppersmiths are con-  
cerned, and if further trouble follows  
in other departments they, too, will  
be conducted on the "open shop" pier.

Mr. Smith was formerly with the  
Santa Fe, and it was he who held out  
against the demands of the machi-  
nists' union, with the result that it  
cost the company a vast sum of mon-  
ey, but it still refuses to employ union  
men exclusively, adopting the  
"open shop" policy instead.

The Democrat-Sentinel would be  
exceedingly pleased if a settlement  
was effected at tomorrow's confer-  
ence, but at the same time it would  
be surprised if the desired result is  
attained.

## DECIDED TO CELEBRATE

German Day Will Be Observed On  
September 18.

The executive committee of the  
Pioneer Verein society met at the  
Liederkranz hall Sunday afternoon,  
when resolutions adopted at a former  
meeting, deciding not to hold the an-  
nual celebration of German Day, were  
rescinded, and a motion to celebrate  
the day on September 18 was unani-  
mously carried.

Charles Botz, Charles Kooch and  
Adolph Hillman were appointed a  
committee to make the preliminary  
arrangements for the celebration and  
report their work at the next meeting  
of the society on September 1.

Adolph Hillman was elected dele-  
gate to attend the state meeting of  
the German-American club, to be held  
at St. Louis on September 6-8, in-  
clusive, making two delegates, the  
second being Charles Kooch, who was  
elected at a former meeting.

In addition, Charles Botz will at-  
tend the meeting in the interest of  
his paper, the Journal.

## County Court in Session.

The judges of the Pettis county  
court are in session today, hearing  
evidence whether or not to establish  
a road in section 14 of Sedalia town-  
ship, two and one-half miles southeast  
of town.

Asbury Goodnight asked for the  
road and in order to construct it the  
land of Mrs. Clara Brennecke will be  
divided.

Mrs. Brennecke objects to this, and  
has employed C. C. Kelly to look af-  
ter her interests, while G. W. Barrett  
it looking after Mr. Goodnight's side  
of the case.

## Free Lecture Tomorrow Night.

Rev. J. M. Harrison will deliver a  
free lecture at the Epworth M. E.  
church on "Character Building" to-  
morrow night.

## Funeral of Mrs. Prine.

Funeral services over the remains  
of Mrs. M. C. Prine, who died Satur-  
day, were conducted by Rev. F. Y.  
Campbell at the family residence, 308  
North Washington avenue, at 3:30  
o'clock Sunday morning, after which  
the body was shipped to California,  
for burial.

## Took the Body to Tipton.

The remains of the 7-year-old son  
of Dr. Bowles, of Tipton, who died  
from the effects of a surgical opera-  
tion in this city Saturday night, were  
shipped to Tipton at 10:40 o'clock  
Sunday morning, where burial was  
made.

## HENRY M. VANCE IS DEAD

HAD BEEN A RESIDENT OF SEDA-  
LIA FOR MORE THAN  
20 YEARS.

## DEATH WAS CAUSED BY DROPSY

Funeral Services Will Be Held From  
the Family Residence, Sixteenth  
Street and Ingram Ave-  
nue, Tomorrow.

Henry M. Vance, a plasterer and  
contractor, died of dropsy at his  
home, Sixteenth and Ingram avenue,  
at 4:40 o'clock this morning, aged 65  
years. Deceased had been bedfast  
for six months.

Seven years ago Mr. Vance was a  
victim of sunstroke, and since then  
he has been feeble in health. A  
year ago he grew worse and the  
stroke finally developed into dropsy,  
which caused his death.

Deceased was born in Newark, O.,  
in 1842. At the age of 12 years he  
came to Missouri, settling in Cooper  
county. He later removed to Sedalia,  
where he has been an esteemed resi-  
dent for more than a score of years.

Mr. Vance was married twice, his  
second wife being Miss Mary Gresh-  
am. Deceased leaves a son, Jesse,  
by his first wife.

Mr. Vance carried \$1,000 insurance  
in Sedalia camp No. 16, Woodmen  
of the World. Funeral services will  
be held at the family residence at 3  
o'clock tomorrow afternoon and in-  
ment will be in the city cemetery.

Likely, Rev. G. W. Mathis will con-  
duct the services, and the following  
will serve as pallbearers: Thomas  
Young, J. H. Moore, S. C. Paxton, W.  
E. Palmer, J. M. Licklider and Judge  
W. E. Conner.

Mr. Vance had been married to his  
second wife for seventeen years, and  
besides her and his son by his first  
wife he leaves a legion of friends to  
mourn his demise.

## HOME FROM THE WEST

Chas. E West Returned Sunday From  
the Pacific Coast.

C. E. West, who left here six weeks  
ago for a visit in Colorado, California  
and the west, returned home Sunday.  
Mrs. West, who accompanied her hus-  
band, remained at Kansas City and  
from there will go to Creston, Ia., to  
visit her mother.

Mr. and Mrs. West had a delightful  
visit. Between Sedalia and Los An-  
geles, Cal., they met seventy-nine  
Sedalians and former Sedalians at  
different places. At San Jose, Cal.,  
they met Mr. and Mrs. Frank Eastey,  
former Sedalians, who are doing well  
in the Golden state.

Mr. West says that during the six  
weeks he has been absent from Seda-  
lia he has experienced no more than  
five disagreeable days, while the hot  
weather that has been making life  
unbearable in Sedalia was not ex-  
perienced in the west.

## Mrs. Smith Improving Nicely.

Mrs. Sam Smith, wife of a Katy  
car inspector, who fell and fractured  
her arm several weeks ago, is get-  
ting along nicely. Miss Allie Miller,  
a trained nurse from Kansas City,  
who has been at Mrs. Smith's bedside  
for some time, returned home this  
afternoon.

## Mr. Kahn Fixing Up.

Albert Kahn, proprietor of the Bell  
clothing store, is having his store re-  
papered and the fixtures revamped.  
Mr. Kahn will add other improve-  
ments before the opening of fall busi-  
ness.

## WORK AT FAIR GROUNDS

CONTRACTOR T. H. JOHNSON IS  
NOW PUSHING THINGS ON  
THE NEW BUILDINGS.

## RAIN HAS INTERFERED GREATLY

Fifteen Hundred Feet of Four-Inch  
Water Mains Arrived Today—Ten  
Thousand Posters Are Soon  
to Be Sent Out.

Owing to the frequent rains of late,  
the work on the two new cattle barns  
and one mile and jack barn the foun-  
dations have been materially slacken-  
ed, and fears are expressed that the  
new buildings will not be completed  
in time for the seventh annual fair,  
October 5-11, inclusive, although Tom  
Johnson, the contractor who has the  
work in hand, says that he will have  
the new buildings finished in ample  
time.

Workmen on one of the cattle  
barns are now nearing the roof, the  
brick work being almost completed.

On the other cattle barn and on  
the new mile and jack barn the foun-  
dations have been completed and the  
material, steel trusses and the like  
are nearly all on the ground.

Fifteen hundred feet of four-inch  
water pipe arrived here from a Chi-  
cago firm today, and soon will be laid  
at the grounds, leading from the  
swine department through all the cat-  
tle barns and into the live stock pa-  
vilion.

Merritt Yeater, who has the con-  
tract for laying 1,500 feet of curbing  
and gutting at the grounds, expects  
to begin work this week, and every-  
thing is now being put in readiness  
for the greatest fair ever known since  
the establishment of the Missouri  
fair.

Ten thousand posters, large in size  
and neat in design and coloring, are  
now in the hands of a local printer,  
and when off the press will be sent  
out through the state to attract the  
attention of outsiders.

## ASSAULTED BY A TRAMP

Pennsylvania Girl Tied to Tree and  
Left for Dead.

Greenville, Pa., Aug. 19.—Miss An-  
na Whitehead, 14 years old, daughter  
of a prominent Methodist Episcopal  
minister of Turnersville, Pa., is in a  
critical condition from a brutal as-  
sault perpetrated late Saturday night  
by a tramp.

Poses from two counties with  
bloodhounds are scouring the country  
for the man. He placed a knife at  
her throat and threatened to kill her  
if she made an outcry. He forced her  
into a woods and after assaulting her,  
tied her to a tree, where she was  
later found almost dead.

## The Brute Captured

Youngstown, Ohio, Aug. 19.—The  
tramp who assaulted Anna Whitehead,  
the fourteen-year-old daughter of the  
Rev. J. M. Whitehead, of Connells-  
ville, Pa., on Saturday night, was  
traced by bloodhounds and captured  
last night in a swamp. Officials put  
him in an automobile and finally got  
him to the Leadville jail, after es-  
caping several lynching parties by  
speeding past them on the road.

## TO SETTLE STRIKE

Samuel Gompers Says He, With Two  
Others, Will Try to Bring Peace.

Washington, Aug. 19.—President  
Samuel Gompers, of the American  
Federation of Labor, today reported  
to the executive council of the Fed-  
eration that he, John Mitchell, of In-  
dianapolis, and Gerald J. Keefe, of  
Detroit, had been entrusted by union  
labor with an attempt to bring about  
"an honorable adjustment of the tele-  
graphers' strike at an opportune  
time."

## No New Developments.

Chicago, Aug. 19.—A committee  
of striking telegraphers today visited  
the brokerage firms which have not  
as yet signed the scale demanded by  
the union. Four large, brokerage  
houses which have not yet signed de-  
clare they will not do so.

Many Western Union and Postal  
messengers who went out on the  
strike returned to work today.

There was no material development  
in the strike situation today, and no  
progress is being made in the direc-  
tion of peace.

## Case Was Dismissed.

The case against Charles Evans,  
Harry Starkey and John Dillard,  
boys charged with stealing from J.  
R. Gearhart, was dismissed by Judge  
Rickman today, owing to the latter  
having no jurisdiction in the case,  
the crime having been committed at  
Dresden.

## Return of the Rifles.

Members of company "D," N. G. M.,  
who have been attending the annual  
encampment at St. Joseph for the  
past week, returned home in a special  
car this morning, the car being at-  
tached to train No. 6, arriving here  
at 11 o'clock.

## THE JURY IS STILL OUT

NO VERDICT YET IN THE SASSA-  
MAN MURDER CASE AT  
WARRENSBURG.

## MAY BE KEPT TOGETHER A WEEK

Judge Bradley is Not Inclined to Dis-  
charge the Jury So Long As  
There is Slightest Possi-  
bility of Verdict.

A telephone message to the Demo-  
crat-Sentinel this afternoon stated  
that the jury was still out at War-  
rensburg in the murder case of Rob-  
ert Sassaman, of St. Louis, who was  
tried last week on the charge of kill-  
ing Carl Miller on the night of May  
30, 1904.

A special dispatch to the St. Louis  
Republic of this morning says: "Sas-  
saman may not know his fate for a  
week. The jury, which retired at 6  
p. m. Friday, has not yet reached its  
verdict, but Judge Bradley says he  
probably will hold the twelve men a  
week more in an effort to dispose of  
the case."

The judge is not allowing the jury  
to deliberate at night, and he believes  
that by this plan a verdict may be  
reached in a day or two.

"The judge called the jury into  
court at noon and at nightfall today,  
and sent the men to their board-  
ing-house tonight with the instructions  
to rest until tomorrow morning, when  
the deliberation will be resumed."

## THE UNKNOWN DEAD BOY

Coroner's Jury Learned Nothing Ad-  
ditional in the Case.

Coroner Tittsworth held an inquest  
at the court house at 10 o'clock this  
morning to establish the identity  
and cause of the killing of the sev-  
enteen-year-old boy, whose mangled  
remains were found by the side of the  
Elzy track southwest of the city last  
Thursday night.

Conductor W. L. Norris, who, with  
Engineer Kinzie, discovered the body,  
was the only witness examined. He  
told of the finding, the details of  
which have been printed in the Demo-  
crat-Sentinel.

The jury returned a verdict that  
the lad had been killed by a Katy  
train. The following composed the  
jury: D. A. Grammer, C. P. Murphy,  
R. I. Hutton, Douglas-Jane, F. H. Ah-  
rens and T. H. O'Bannon.

Coroner Tittsworth received three  
long distance telephone calls today,  
one from a Kansas City, Kas., und-  
ertaker, another from a Kansas City  
undertaker and a third from a wo-  
man of Kansas City, all three asking  
for an accurate description of the  
boy killed.

Another man who lives here, but  
whose name was unknown to Coroner  
Tittsworth, was present at the inquest  
and asked about the lad, stating that  
a relative of his had adopted a child  
answering the description in some  
respects, and that the boy had dis-  
appeared from home at Clinton about  
the time the body was found.

## HOEY, THE ACTOR, DEAD

Bright's Disease Fatal to a Man Who  
Played With Booth.

New York, Aug. 19.—George Hoey,  
the actor, son of the late John Hoey,  
president of the Adams Express com-  
pany, died at the King's county hospi-  
tal in Brooklyn Sunday. He has  
long been a sufferer from Bright's dis-  
ease, and early last week was pros-  
trated by an attack of the disease.

## A NEGRO FROM SEDALIA

MACEY ROBINSON AND HIS DOG  
CAUSED SENSATION IN  
ST. LOUIS.

## AN OFFICER USED CLUB ON BOTH

Robinson, Who Is 21 Years Old, Was  
Handled Quite Roughly and Was  
Taken to the Dispensary  
for Treatment.

St. Louis, Mo., Aug. 19.—Attacked  
front and rear by a negro and a bul-  
dog, Patrolman Chesnik, of the Carr  
street station, came off victor after  
he had clubbed off both assailants  
yesterday morning at 2:30 o'clock.

Chesnik and his partner, Patrol-  
man Shelton, were at Eighth and  
O'Fallon streets when they heard a  
woman screaming. They ran to No.  
1217 North Eighth street, where Jo-  
sephine Lee, a negress, told them a  
man had forced his way into the  
house. The patrolmen ran into the  
hall and found a negro brandishing a  
club.

Wrestling away the weapon they  
started to take him to the station.  
On the way the negro struck Chesnik  
in the breast with his fist and tried  
to throw him.

Turning after the patrolman had  
broken from his grasp, the negro  
called to a bulldog which had follow-  
ed the trio from the house.

"Sic 'em!" he yelled. The dog  
flew at Chesnik and seized him by the  
blouse, tearing it. By a vigorous use  
of their night sticks, Chesnik and  
Shelton forced the dog to loosen his  
scarp. The animal fled. The negro  
had not been idle in the meantime,  
and was struggling desperately to es-  
cape. He was quelled after several  
blows on the head.

After his injuries had been treated  
at the city dispensary the negro was  
booked as Macey Robinson, 21 years  
old, of Sedalia, Mo.

## MARRIED THREE YEARS

Col. and Mrs. J. A. Robinson Will  
Celebrate Tomorrow.

Col. J. A. Robinson, formerly man-  
ager of the Elks' club rooms, but now  
conducting a hotel at Muskogee,  
I. T., has issued invitations to a few  
Sedalia friends to join himself and  
wife at Muskogee tomorrow, when  
they will quietly celebrate the third  
anniversary of their marriage.

August 20, 1904, at Clinton, Col.  
Robinson was united in wedlock to  
Miss J. Alvina Wakeman, of Henry  
county, the ceremony being perform-  
ed by Justice James Callahan, and  
their married life has been unusu-  
ally happy.

That happiness and prosperity may  
continue to be their portion is the  
sincere wish of a legion of friends in  
Sedalia.

## A FISH FRY ON SUNDAY

Quite a Number Enjoyed Themselves  
at the Robinson Hole.

A jolly party enjoyed a fish fry at  
the Robinson hole, eight miles south-  
west of Sedalia, Sunday. The ladies  
of the party provided a splendid  
luncheon of substantial and deli-  
cacies, and all passed a delightful day,  
returning home at the supper hour.  
The following ladies and gentlemen  
made the trip:

Mesdames Tim Clifford, Pat Clif-  
ford and Mike Clifford; Messrs. Pat  
Clifford, Tim Clifford, Mike Clifford,  
Will Clifford, Dan Clifford, Maurice  
Clifford, Charles Clifford, Lyonel Clif-  
ford, D. T. Clifford, John English,  
J. Reed, Phil Sullivan, C. Clingen-  
peel, H. Wicke, H. Carson, S. Carson,  
T. A. Carson, J. Mellor, H. Humes,  
Newt Brown.

## Found the \$150 Diamond Ring.

The \$150 diamond ring advertised  
in Sunday's Democrat-Sentinel as  
having been lost by Mrs. W. F. Tyler,  
who offered a reward of \$25 for the  
recovery, was found by A. L. Howard,  
who yesterday advised Mrs. Tyler of  
the fact.

## Rebuilding the Nevada Plant.

William Schrader, the electrician,  
is at Nevada, Mo., where he is su-  
perintending the rebuilding of the  
plant of the Water, Light and Trac-  
tion Co.

## Cattle Shipped From Beaman.

Seven carloads of cattle were  
shipped from Beaman this afternoon  
for the St. Louis market, as follows:  
Joe L. Cartwright, three cars, and  
E. W. Keller, C. E. Walker, Dr. J. C.  
Mitchell and N. T. Elmore one car  
each. Messrs. Cartwright, Mitchell  
and Elmore accompanied the stock.

## Dr. Nasse Dressed the Wound.

Ernest Elsner, employed at the  
Sweet Springs Creamery, caught the  
index finger on his left hand in the  
elevator shaft at the company's plant  
at 10 o'clock this morning, painfully  
injuring the member. Dr. Nasse  
dressed the wound.

## AFTER THE SOAP CLUBS

THE CITY COUNCIL WILL BE RE-  
QUESTED TO MAKE THEM  
PAY A LICENSE.

## MATTER WILL COME UP TONIGHT

Local Merchants Are All Paying Li-  
charge of the shooting gallery.  
At Head of Clubs Should  
"Crack Down" Also.

Alderman J. M. DeJarnett, of the  
First ward, at tonight's semi-monthly  
meeting of the city council, will pre-  
sent a numerous signed petition,  
asking the city fathers to pass an  
ordinance requiring all promoters of  
soap clubs, and other clubs that buy  
goods out of town, to pay a mer-  
chants' license, the same as do home  
dealers. It is believed the prayer of  
the petitioners will be granted.

It is asserted that there are a large  
number of these clubs in the city, and  
as a result thousands of dollars are  
sent annually to St. Louis and Chi-  
cago houses that ought to be spent  
with Sedalia merchants.

Not only are soaps, perfumes, ex-  
tracts and groceries purchased of  
these out-of-town houses, but furni-  
ture, dry goods, hardware, stoves and  
almost everything else as well, and  
the home merchants who pay a li-  
cense think the club promoters should  
do likewise.

## OFFICE IN EAST SEDALIA

Postoffice to Have a Sub-Station There  
at Early Date.

Several weeks ago about thirty  
business men of East Sedalia circu-  
lated a petition, which was later sent  
to the postoffice department at Wash-  
ington, asking that a sub-station of  
the local postoffice be established in  
that section of the city.

With a view of looking over the  
situation to see if the plan would be  
advisable, a postoffice inspector will  
be here, probably next week, to con-  
fer with Postmaster Codding in re-  
gard to the plan.

The East Sedalia business men fa-  
vor Fifth and Engineer avenue as the  
location, but whether the postoffice  
inspector will recommend favorably  
the sub-station or ignore the wishes  
of the people of that part of town  
remains to be seen.

In case the station should be es-  
tablished, regular clerks and carriers  
would be stationed there, and the new  
office would be entire in itself and  
separate from the down town office.

## MORE BAGGAGE ALLOWED

Missouri Railroads Will Permit 150  
Pounds On First-Class Tickets.

Jefferson City, Mo., Aug. 19.—A let-  
ter was received here today at the  
attorney general's office from J. E.  
Harriman, of St. Louis, chairman of  
the southwestern passenger bureau,  
stating that the Missouri railroads  
would on August 25th begin allowing  
150 pounds of baggage to be carried  
on each first-class ticket sold. This  
amount was formerly allowed until  
the new rate went into effect, which  
provided that the railroads could  
claim excess on all baggage carried  
above 150 pounds. After July 1st  
Attorney General Hadley took the  
matter up with the railroads, and  
they have agreed to allow the former  
amount of baggage to be carried on  
first-class tickets.

## Named as Administrator.

Probate Judge Kennedy today ap-  
pointed Homer G. Phillips, the col-  
ored attorney, administrator of the es-  
tate of John Phillips, deceased.

## WAS FORMER SEDALIAN

JACOB YUNT, WHO LEARNED  
TELEGRAPHY UNDER MR.  
J. P. LANE HERE.

## WAS A WESTERN UNION OPERATOR

Lost His Life While Bathing in the  
Beach at Savannah, Ga.—If the  
Body Is Recovered Will Be  
Brought to This City.

The drowning of a man who learn-  
ed telegraphy in the Western Union  
office in Sedalia was written of as  
follows in the Joplin Globe of Aug.  
14, a marked copy of which was  
received Sunday by Frank E. Gib-  
bons from J. P. Lane, former man-  
ager of the company office here, but  
now holding a like position at Jop-  
lin:

Mrs. Cinderella Walker, of 215  
South Gray avenue, unfolded Tues-  
day's issue of the Globe early yester-  
day morning and began perusing its  
columns. Five minutes later a cry of  
anguish rang through the household.  
"Jacob is dead! Oh, Jacob is  
dead!"

Joseph Walker, the husband pick-  
ed up the paper and hurriedly scan-  
ned its columns. On the first page  
he was startled to read:  
"Operators Handled This Message  
Promptly."

"Wireless Telegrapher Believed to  
Be Joplinite Drowned."  
"Name of Jacob Yunt Not in Direc-  
tory."

Thus it was that sorrow gained  
entrance to the Walker household.  
Mrs. Cinderella Walker is the mo-  
ther of Jacob Yunt, 32 years old, who  
was drowned while bathing near the  
beach at Savannah, Ga., Monday.

The first news of Mr. Yunt's sad  
fate reached the Joplin police Mon-  
day evening. The message was a  
telegram from the Atlanta De Forest  
Wireless company, requesting the  
police to locate relatives of Jacob  
Yunt and ascertain what disposition  
should be made of the body should  
it be recovered. Every effort made  
by the police to find a family in Jop-  
lin named Yunt failed. Mrs. Yunt's  
second marriage to Mr. Walker was  
the reason.

Joseph Walker, the stepfather, sent  
a message yesterday morning giving  
instructions to ship the body to Se-  
dalia, Mo., the old home, in case of  
recovery, which seems improbable, as  
the body was washed far out from  
the beach by the undertow.

Yunt was at one time operator for  
the Western Union, in view of which  
the message telling of his death was  
relayed from point to point until it  
reached Joplin, while messages of  
other nature were sidetracked.

When J. P. Lane, local manager of  
the Western Union, had charge of  
the Sedalia office, Jacob Yunt, then  
a small boy, was in his employ as  
a messenger. The lad worked to the  
position of operator and then went  
to Kansas City. While he has never  
lived in Joplin, he has visited his  
mother in this city frequently. Sev-  
eral years ago he worked as govern-  
ment operator at the Panama canal,  
later returning and becoming con-  
nected with the De Forest Wireless  
company. A short time prior to his

## FUTURE OF THE AUTOMOBILE INDUSTRY.

The failure of the Pope Manufacturing company at Hartford, Conn., following closely upon the bankruptcy of a number of other automobile concerns, calls attention sharply to the present condition of this industry. Different causes are given for these disasters, but if analyzed all would probably be found to rest ultimately upon a common basis—that of overproduction.

The explanation advanced for the suspension of the Pope company, which is one of the very largest of its kind in the country, is very novel and interesting. Here was a corporation capitalized at \$22,000,000 engaged in the manufacture of a commodity for which it has been supposed there was a practically unlimited demand. Its business was nearly all conducted on a cash basis, so that for all expenditures there was presumably an inflow of returns commonly understood to represent a high percentage of profit. Yet this company, engaged in a lucrative enterprise, with its twenty-two millions of capital and on bonded indebtedness, was unable to borrow money on its investment and the immense business it had developed. It could not even meet outstanding notes as they became due. But this remarkable situation is explained by further facts in connection with the failure. The assets of the company, which represent its investment and stocks, are only \$11,000,000. In other words, its capital stock was just half water. In addition, it had many cars on hand which it could not dispose of, more than 200 being thrown back on its hands by one customer. These machines are practically unsaleable, the models of 1908 being about ready for the market, and mean a heavy loss. In view of these conditions, it is not surprising that the banks curtailed the credit of the company and called in their loans.

The Pope company was one of the pioneers in the bicycle business, and one of the few to survive the fatal results of overproduction to which that industry was in a few years subjected. It would appear that the automobile industry is traveling the same road. It is said that a number of manufacturers were left this season with many unsold cars on hand, some reaching far into the hundreds. The undisposed of product goes into money fast.

There are numerous concerns doing business on a margin of working capital so small that the failure to dispose of a considerable portion of a season's products would invite financial collapse. It can not be said that the demand for automobiles is declining. On the contrary, it is steadily increasing. But the enormous strides in production appear to have overtaken and passed the normal demand. This is the first season in

which the automobile market may be said to have been glutted. But there will be little or no curtailment of product.

The immense profits of the business, ranging from 60 to 80 per cent, and possibly higher, can not be resisted by promoters and capitalists, and the prospect is that manufacturers will swamp the market with machines. In the end, prices must tumble and the automobile will become a much cheaper luxury.

## RAILROADS AND POLITICS.

For some years the reliance of the railroads has been the United States courts, the United States senate and state senates and now that public opinion has had effect on some of the judges, and the real equities of the people are being considered, there is a very pessimistic feeling against corporation magnates. The same public opinion is bound to produce a reform spasm in the votes of some of the republican members of the United States senate, and already the state senators in several of the states have been falling over each other to be first to declare for reduced rates.

Now, there is danger in this political management of railroads, and sensible people must turn their faces against those politicians who for political effect are ready to harass the railroads, instead of being fair and just to them and to the people alike. The public wants reasonable rates and accommodations and safe transit for passengers and goods. No one but the socialists desires confiscation, and no sensible person desires rates so low as would tend to prevent a fair return on the money invested.

At the same time, the railroads must play fair. They must reform their way of doing business and abolish the plundering of inside companies, such as fast freight lines, collusion with contractors, and the bridge and terminal extortion and other soft snaps for the benefit of insiders.

It will take time to accomplish these reforms, and the sooner the railroad managers set their houses in order and show deeds meet for repentance, the better it will be for the public and themselves. Instead of government ownership, what is needed is the divorce of railroads and politics.

That foolish old question, "Is alcohol poison?" is again being discussed, this time by English physicians. No, of course, it is not poison; it is food—rich food for the undertaker and the poorhouse.

"Uncle Billy" Waring, of New Jersey, who says he can forecast the weather by the curl or lack of it in the tails of his hogs, may expect a brief, pointed communication from the White House shortly.

There will be no change in the cabinet, says Secretary Taft. This means that Elihu Root will continue to sacrifice his law practice for the benefit of the nation.

## WOMEN WERE "VICTIMS"

'TIS ALLEGED THAT THE MALES WERE USED FOR THE PURPOSE OF FRAUD.

## GLENDALE, OHIO MAN IS IN TOILS

Was Convicted Once Before of Same Offense, But Was Let Off With 60 Days Sentence On a Promise to Reform.

William E. Burch is again in jail on a charge of using the mails to defraud, says the Cincinnati Enquirer. He was arrested yesterday by Deputy United States Marshal Sanderson at his home in Glendale after an investigation by Postoffice Inspector G. W. Soranson, and will have a hearing before United States Commissioner Adler today.

Under his own and various company and other names, Burch has systematically been plying, according to the records of the postoffice inspection department and the United States district court, the business of offering to supply women with work at their homes and then bilking them out of the \$1 or other fee for samples and instructions. Two years ago he was arrested and pleaded guilty to such a charge. On account of the pleadings of his wife and appearance of his children in court and his solemn promises of reform, he was then let off with a sentence of sixty days in jail.

Among the names used by Burch were "Royal Exchange," which was located on West Seventh street in the form of a room to receive mail; "The Emporium," which was located on Walnut Hills; "The Juvenile Bazaar company," V. A. Stockfield, proprietor, and "The Burch Manufacturing company, Mrs. V. A. Burch."

Burch advertised extensively in papers as far away as possible from Cincinnati, and which do not circulate in this part of the country. He had several sets of answers which he sent to victims at different times, all containing glowing promises, which were not and could not be fulfilled. Copies of them are in the possession of the postoffice department. One of the latest offers women steady employment at their homes sewing carpet covers at \$6 per dozen, with the usual provision that \$1 be sent for samples and instructions.

For some time after his conviction at the October (1895) term of the United States court Burch was not heard from here, but complaints began coming in last fall, which indicated that he was again at work. Recently more complaints of the same kind have been received, and what is stated to be ample evidence to convict has now been obtained.

How many women have been victims of the alluring circulars sent out by Burch can only, it is said, be roughly estimated. It is known that they are scattered all over the country except in the vicinity of places where he has been living, and giving as the address of the various imaginary companies, and that he has been in that business exclusively for a considerable length of time.

## FATHER IS IN JAIL

For Beating His Daughter Almost to Death.

Beaver Falls, Pa., Aug. 19.—Michael Depper is in jail here charged with beating his 17-year-old daughter almost to death.

Humane Agent H. M. Close, who caused Depper's arrest, charges that when the girl returned home from a picnic at Celeron her father became enraged at what he considered her bedraggled condition, knocked her down and beat her until she fell fainting at her feet and was rescued by neighbors.

Close also charges that an uncle held his hand over the girl's mouth so neighbors could not hear her scream while she was being beaten. But they heard her cries and threatened to shoot Depper if he struck another blow.

A physician was summoned and worked with the girl all night, but she did not regain consciousness until morning and she is still in a serious condition. The whole neighborhood is aroused by the alleged brutality of the father, and violence is feared should the girl die.

## Uncle Sam's Pasturage.

Uncle Sam, unlike Job, the rich man of the east, does not own many cattle and horses, or sheep and goats, but he furnishes an enormous amount of grazing land for those who do have herds and flocks, says the Wall Street Journal. The total number of grown stock allowed to graze upon national forest lands during the season of 1907 included 1,858,000 cattle and horses and 4,395,020 sheep and goats.

## ANOTHER "DERELICT" CASE

An Assistant General Attorney Ordered to Versailles.

Jefferson City, Aug. 19.—N. P. Century, assistant attorney general, left today for Morgan county, where he will appear before the grand jury to hear evidence regarding the charges which bear upon the official conduct of W. T. S. Agee, the prosecuting attorney of that county.

Judge Martin, of Morgan county, requested that the representative of the attorney general's office be sent. The charges have to do with some criminal cases which were dismissed in that county. Versailles is the county seat of Morgan county. If conditions warrant, action probably will be begun under the new derelict official law.

## OLD MAN JESTER IS DEAD

DEFENDANT IN A CELEBRATED MURDER TRIAL IN MISSOURI IN 1897.

## FINALLY ACQUITTED BY THE JURY

He Was Accused of Slaying a Brother of John W. Gates in 1871—The Trial Lasted Five Weeks and Was Sensational.

Aurora, Mo., Aug. 18.—Information has reached this city through Postmaster J. J. Burke, of Norman, Okla., of the death at Cushing, Okla., of Alexander Jester, alias William A. Hill, over 90 years old, who was tried at New London, Mo., in July, 1900, for the murder of Gilbert W. Gates, brother of John W. Gates, the New York and Chicago steel king and multimillionaire, the crime having occurred in February, 1871.

The old man died August 7 at the home of his daughter, Alice Jester, and was buried at Shawnee, Okla. The death removes one of the most remarkable defendants in a murder case that was ever tried in the Mississippi Valley.

Jester, in the winter of 1871 departed from Wichita, Kan., with a "prairie schooner," on which was a trained buffalo calf en route to his former home in Indiana.

He left on his ranch a family consisting of a wife and two children. On reaching the Missouri state line he came up with Gilbert Gates, and together they traveled until reaching a small town called Mulberry Grove, in Audrain county.

At this point the young man mysteriously disappeared, and from there on old man Jester was seen with both his own and Gates' outfit.

The entire five weeks of the trial was a series of dramatic and sensational incidents. The years that had intervened since the crime had been committed, the extreme age of the defendant and practically all the witnesses, and the fact that the old derelict man was being tried without means of his own, while all the millions of the Gates family were at the disposal of the prosecution, gave special interest to the proceedings, and sympathy during the entire trial was strongly in his favor.

Joseph H. Rodes, of this city, was retained by John W. Gates and assisted in the prosecution of the Jester case. If Jester was guilty, as many believed, despite his acquittal, he carried his secret to the grave with him, as the press dispatches told of no confession.

Parsons, Kas., Aug. 19.—The Parsons board of education is having trouble with its teachers because the teachers jump their contracts and leave the schools without sufficient notice to the board to enable the officers to get another person to fill the vacancy.

A plan is now on foot by members of the board to make teachers give bond upon accepting a contract. It is the scheme to make all teachers give a bond not to leave without the consent of the board.

## Provocation Enough.

A deaf old gentleman dined with a family where grace was always said. When the guests were seated the host bowed his head and began to repeat the accustomed verse in a subdued, reverent tone. "Eh? What's that?" demanded the deaf old gentleman, who sat beside him. The host smiled patiently and began again, in a louder, more deprecatory voice. "Speak a little louder. I don't catch what you say," the old gentleman persisted. A low ripple of laughter went round the table. The host, his face crimson with embarrassment, raised his voice and repeated the verse. The deaf gentleman did his best to hear, but failed. He placed one hand upon his host's arm. "What did you say?" he demanded frantically. The host cast him an angry glance. "I—n—t, I'm saying grace," he snapped.—Lippincott's Magazine.

The Parachute of a New Haven Youth Failed to Open.

New Haven, Conn., Aug. 19.—Before a horror-stricken crowd of thousands of persons, Robert French, of West Haven, a 20-year-old aeronaut, was killed by a fall of half a mile from a balloon at Saviarock, the large amusement park near here, Saturday afternoon.

The failure of his parachute to open when he was shot out of a cannon hanging to the balloon caused his death. As the young man shot downward through the air a gasp of terror went up from the onlooking thousands, and dozens of women fainted.

## A WOULD-BE ASSASSIN

George Onweiler, a Young Man Is Fired at in Calhoun.

The Calhoun Clarion says that Thursday night about 9 o'clock George Onweiler, the youthful clerk in the Guttridge drug store, was fired upon by some person concealed behind a tree upon the public school grounds, one shot going through the cap he was wearing.

He had left the store, and when opposite the school house, a voice asked, "Is that you, George?" Repeating that it was, the shooting began, and two shots were fired at him, only one touching him, as above stated.

George arrived home in a very badly scared and nervous condition. Dr. Maupin and Jim Guttridge heard the shooting and at once began an investigation.

They discovered the tracks of the would-be assassin, but no tangible evidence as to who the dastard was. But this fact will come out in due time, and whoever it is he should receive the extreme penalty.

## FOUND THE "LID" LIFTED

GOVERNOR FOLK IS DEFIED BY TOWN MARSHAL OF UNIVERSITY CITY.

## WOULD NOT RAID LOUISIANA CLUB

Willmann Says He Has No Authority—Superiors Appeal to Judge Ryors—Acted On His Lawyer's Advice.

St. Louis, Mo., August 19.—City Marshal John F. Willmann, of University City, St. Louis county, yesterday defied Governor Folk, who was in the city, by refusing to raid any lifting club in his jurisdiction.

In the morning, and again in the afternoon, officials of University City instructed Willmann to take his three deputies and to deputize seven others and "make forcible entrance if necessary, into Mark Gumpert's Louisiana club, at No. 6601 Delmar boulevard, and arrest every man and woman in the place."

In each instance Willmann says he asked for the warrants, and was informed that warrants were not necessary; that it was to be a raid and not a simple arrest. He declined to act himself or to allow his deputies to do so. He was then informed, he says, that Governor Folk had instigated the instructions, and that he must carry out orders or "suffer the consequences."

The club was not disturbed, and rumors of the orders only augmented the crowd.

Last night Willmann was summoned to the residence of John W. Lewis, corporation attorney of University City and brother of Mayor E. G. Lewis and asked if he proposed to make the raid. He says he again asked for the warrants, but they were not forthcoming, and he refused to proceed.

A private detective named Pelham, who had five men with him, asked Willmann to act with him, and said he would lead the raid. Willmann refused this time, he says, because if there was any raid to be made he would lead it himself and not allow an outsider to interfere.

Williams left the attorney's house, went to his own, where he held a conference with his deputies, H. M. Jones, James Walsh and George Ward. All agreed that it was best to take no action, pending the decision as to whether the club had a right to operate under the state charter. They so informed Mr. Lewis at 8 o'clock.

In the meantime Judge Ryors, of the circuit court of St. Louis county, was called from the Park hotel and went to Clayton. It was said the University City officials, re-enforced by members of the St. Louis Law-Enforcement League, summoned him, hoping to obtain an order of court by which a temporary city marshal could be authorized to act. No action was taken, however, last night.

Willmann said that the reason he did not care to proceed was because he "was walking on thin ice," and that he had been advised by his attorney, Senator A. E. L. Gardner, not to make arrests without warrants.

"I was notified late Saturday night," said Marshal Willmann, "to be at a certain residence in University City, at 1 o'clock Sunday morning. I was there. There were several men present. I was advised of the plan to close up Gumpert's place. I said all right; that I would make all the arrests that they wanted me to make, but all I wanted was warrants."

"Then I was given to understand no warrants would be issued; that I was supposed to just go in and get the 'whole bunch,' customers and all. I said, 'not for mine.' They told me that Governor Folk wanted it done. I asked to see the governor, but they told me he did not care to see me. They ordered me to be at Mr. Lewis' office with my deputies at 4 o'clock and I left."

"I went to Clayton and saw my attorney, Senator Gardner. I put up the case to him, and he told me I had better insist on the warrants; that it might jeopardize me personally."

"I have twenty-nine acres of valuable land, and I believe if I should make an illegal arrest the prisoners might come back at me for damages."

and I don't propose to take any chances.

"I am walking on thin ice, anyway, so I am informed. I don't know whether I am a city marshal or not. The question is in the courts as to the legality of the incorporation of University City. If it is decided that the municipality is not properly incorporated, then my official position is illegal, and I would be liable for false arrest."

"Another thing, I think I am acting for the best interests of the citizens. If I make a break such as this action is apt to be, the taxpayers of the city would be liable. I was appointed Marshal September 6, 1906, and was elected to the position April 2, 1907. I don't believe they want these clubs stopped in any such manner as was proposed that I should do it."

"Let the sheriff of the county do it. He says he is afraid to do it on account of his personal liability. If he is in danger why I am far more so, for his right to hold office has never been questioned."

"When I returned at 4 o'clock I informed my superiors of my determination. They told me to come back at 7 p. m. with my deputies. I supposed the warrants would be issued. We were there, but then it was a question of my helping a private detective and five of his men to make the raid. This I flatly refused to do. I told them if there was any bell-ringing to do, that I would be boss of the bell-ringers. We left."

## HATS OFF.

Facts About the American Indian's Healthy Hair.

The American Indian, accustomed from time immemorial to go bare-headed in all kinds of weather is never troubled with falling hair or baldness.

The close atmosphere caused by our civilized headgear is conducive to the breeding of infinitesimal germs which dig into the scalp and thrive on the sap of the hair root.

This true cause of baldness is of recent discovery and explains the non-success of all hair vigors which treated baldness as a functional disorder.

Newbro's Herpicide is a direct exterminator of the germ. It destroys the cause and permits the hair to grow as nature intended.

Will Try Their Luck at Fishing.

This morning Judge Thomas A. Rucker and brother-in-law, George M. Pemberton, of Sedalia, Mo., will leave via the Midland for Woods' lake to remain a day or two angling for the big trout known to be teasing the fishermen of that lake, says the Aspen, Colo., Times of the 18th. The judge, they say, is an expert with the rod and line, and his friends predict he will land several whales. Remember your friends, judge, remember your friends.

## WOMAN STRIKE BREAKER

SHE HAS NOW BROKEN INTO THE TROUBLE WITH THE TELEGRAPH OPERATORS.

HOLDING FORTH AT CLEVELAND, O.

Says She Finds the Work Intensely Absorbing, and It Is Very Likely That She Speaks Simply the Truth.

Cleveland, O., Aug. 19.—The feminine "Jim Farley," a girl who breaks strikes, has broken into the telegraphers' strike.

Grace M. Lacey, a college graduate and former teacher, is the young woman who has tackled the big job, and she has made Cleveland her headquarters. Only a few weeks ago she wound up a contract to supply several hundred men to end a machinists strike, and now she is preparing to assist the Western Union and the Postal out of their troubles.

When a reporter went to see Miss Lacey she made no secret of it that her business is to organize strike-breakers.

"In handling this class of men, who are notoriously desperate and dissolute," said Miss Lacey, "I try to control them in the same way as I did my pupils at school—by mere force of will power, and I find that it is very successful."

"Of course, I have more trouble with the native born American than with his foreign born brother. He is inclined to be independent and to try working a bluff."

"He claims generally that he is an expert in almost every trade and wants to sign a contract at a high salary figure."

"It is then that I make him show his hand, and after that he becomes quite docile and manageable."

"I find my work intensely absorbing," continued Miss Lacey, "for it gives me a chance to study life in the raw and contrast it with the veneered article I met at college."

"I like the work better than teaching, for the reason that here nearly

every man I meet means a personal combat of wits, while at school there were only three or four hard fights each year, and they were tame in comparison."

## Make Known Their Marriage.

The marriage of Mr. Ellis Douglass and Miss Yates was made known at Columbia Sunday. They were married in Clinton on June 6. Mrs. Douglass is a daughter of the Rev. Dr. H. Clay Yates, of Warrensburg. Mr. Douglass is a son of Dr. and Mrs. W. H. Douglass, of Columbia. Mr. and Mrs. Douglass will go to New Mexico to make their home.

## WAS TO ACT AS PALLBEARER

Engineer Aaron Pratt Was Killed on the Iron Mountain.

Scores of passengers on Iron Mountain train No. 4, running from Little Rock to St. Louis, were saved from death Friday night when the coupling between the mail car and the remainder of the coaches of the train broke as the engine and mail car plunged over a twenty-foot embankment, says Sunday's St. Louis Globe-Democrat.

Engineer Aaron Pratt, of 1816 Lami street, was killed. He fell from the engine as it left the track and the big mogul crushed his life out.

At Clifton Cave, near Logan, Mo., the engine jumped a switch. As it left the track the couplings broke and the engine plunged over the embankment, leaving the train standing on the track. The train was composed of six cars, containing over 100 passengers. The fireman's arm was broken.

No report of the cause of the wreck has been received at the Iron Mountain offices in St. Louis. It is supposed that a defective track occasioned the disaster.

On the train was the body of Robert J. Johnson, an Iron Mountain engineer, who was killed Wednesday evening by the explosion of a boiler. Pratt was bringing the body home and had prepared to act as pallbearer for his dead friend.

## At the Literary Club.

"How did everything come off at the literary last night?" "Well, the barbecued beef was tiptop, an' the Brunswick stew couldn't be beat, while the corn licker had enough beads on it to make a pearl necklace look sick." "But—was there no literary discussion?" "Lemme see, now—I believe the president did hit the vice president 'side the head with a copy of Bunyan's 'Pilgrim's Progress.'"—Atlanta Constitution.

Those who have stomach trouble, no matter how slight, should give every possible help to the digestive organs, so that the food may be digested with the least effort. This may be done by taking something that contains natural digestive properties—something like Kodol for Indigestion and Dyspepsia. Kodol is a preparation of vegetable acids and contains the very same juices found in a healthy stomach. It digests what you eat. Sold by Arlington Pharmacy.

## TURNER M'BAIN BETTER

Boone County Politician Was Near Death in New York.

Columbia, Mo., Aug. 19.—Turner McBaine, president of the Exchange National bank, of this city, and the largest land owner of this county, is reported better today.

He has just had an operation performed in a hospital in New York city. He has been in poor health for several months, suffering from stomach trouble.

Mr. McBaine is a prominent democratic politician in this county and made the race for the nomination for the legislature. He was defeated by Morton H. Pemberton, father of the five-mile saloon law.

Telegrams Being Received by Mail

The Western Union telegraph office at Columbia is receiving telegrams by mail, according to C. C. Chappell, the manager, who says that about a hundred have reached the office that way since the office forced quit work a week ago.

**Y**OUR salary, wages, fees, commissions—no matter in what guise your income reaches you—should not entirely "satisfy" you. You should be alert to "piece it out," to extend it. For this is merely "making the most of it."

"THE INCOME EXTENSION SOCIETY" is purely a fictitious name for a very real and very active class of people in this city—THE PEOPLE WHO USE THE CLASSIFIED ADVERTISING COLUMNS OF THIS NEWSPAPER.

Some of these "income extenders" use the classified ads. for securing better employment, with higher wages. Some of them find them useful in securing private pupils for otherwise idle evenings. Some secure tenants, boarders roomers, buyers for the not-used things in the house.

If you will look over the classified columns of this newspaper today you will get a hint of the sort of people who believe in "income extension" and how they go about the matter

**Manila's River Population.**

Dr. A. D. Wilkinson of Nebraska describes a queer feature of life in Manila: "The river population of Manila is a class by itself. Not to be outdone by Canton she has her sampans, known as cascoes and lorchas, supporting 15,000 people within the city limits, where thousands of children are born, grow, live and die on these floating cargo carriers. They never dream of any other world than that which floats about them. These boats are small, but accommodate a family of five or seven. They have a fire pot, a platform and rice kettle. The cabin or covered portion is very small—in fact, I don't see how they live—and it is a wonder to me that the children don't fall overboard and drown. You will often see a woman sitting at the end of the boat, rowing, with a child strapped on her back, looking for all the world like a little monkey."

**52 Gotham Murders in Month.**

New York.—Four hundred and ninety-eight deaths were reported to the coroner's office in June. According to the monthly report of Chief Clerk Jacob E. Bausch, 236 were due to violence or accident, the remaining 262 being sudden deaths due to natural causes. Of the deaths by violence or accident 52 were homicides and 29 were suicides. Thirty-nine bodies were found floating in the rivers. Sixteen persons were killed by carriages or wagons, 15 by the street railways and three by automobiles.

**Texas Hotels Get Longer Sheets.**

Fort Worth, Tex.—Although the Griggs law providing that bed sheets in Texas hotels and lodging houses be of a certain length does not go into effect until July 12, the hotels of this city are making preparations to comply with the law. The hotel men are laying in a new supply of sheets of required length, nine feet. The measure was passed by the legislature in response to a demand from the Travelers' Protective association.

## FIRST WIFE BOBBED UP

McGIVERN GAVE UP SPOUSE HE HAD LIVED WITH FOR 25 YEARS.

## THE LATTER CLAIMS THEIR HOME

She is Now in a Hospital at Bay City, Mich., But Says There Will Be Something Doing When She Is Out.

James McGivern, residing at 206 Fraser street, declares he is not a bigamist and repudiates the woman he has been living with as his wife in this city since 1880, says a Bay City, Mich., dispatch. Installed at his home as the true Mrs. McGivern is Mrs. Sarah N. McGivern, just arrived from Belfast, Ireland.

Mrs. McGivern No. 1 is armed with a marriage certificate showing she was wedded to McGivern at St. Matthews church, Belfast, May 2, 1872.

She says her husband became involved in religious turmoil in Belfast and found it advisable to come to America eleven months after their marriage.

He came direct to Bay City, and for a time corresponded with her. But after a year or two the letters ceased and she heard nothing further from him until a few months ago.

She had a cousin on the Belfast police force who took the matter up with the authorities, located her husband for her, and, it is said, he sent her \$200 to come to his home here.

Mrs. McGivern No. 2 has been in Mercy hospital for several months. She says "Jim" wants to send her to

the poorhouse now, but he'll have a hard time doing it.

She claims they were married in the Central M. E. church in this city, but that the marriage certificate was destroyed by fire.

She says, however, that it will be an easy matter to get a copy from the minister who wedded them, as he still is in Michigan. She also claims that the house in which the other woman is residing belongs to her, and intimates that there will be "things doing" as soon as she is able to leave the hospital.

McGivern has two grown children by his second wife, who are standing by their mother in the affair. The prosecuting attorney has taken the matter up and a warrant will probably be issued against McGivern, charging bigamy.

## Assisting Root Growth.

On bottom land plow deep and close. If plowed early disc it. It not packed a smoothing harrow will do. Two or three days after planting go across with a section harrow, which thoroughly loosens up the ground. Then use a shovel cultivator with small shovels next to the corn. Cultivate at least twice more, using the broader shovels, but not going too deep. If corn is well plowed in the first place the corn roots down deep and should not be disturbed. The brace roots near the surface should be given a chance to spread. The last time the shovel should not go near the corn.

## Hindoo Likes Many Clocks.

The Hindoo places a clock in his room, not because he ever desires to know what the hour is, but because a clock is a foreign curiosity. Instead, therefore of contenting himself with one good clock, he will have, perhaps, a dozen in one room. These clocks are signs of his wealth, but they do not add to his comfort, for he is so indifferent to time that he measures it by the number of bamboo lengths the sun has traveled about the horizon.

## PULLED THE TRIGGER

How a Farm Hand Killed a St. Louis County Official.

St. Louis, Aug. 19.—George M. Buhrmann, chief deputy collector of United States internal revenue at St. Louis, was shot in the head and killed in Azora, St. Genevieve county, Saturday.

The shooting was accidental. Mr. Buhrmann was with a friend, the Rev. Fr. Keller, pastor of a Catholic church at Azora. The Rev. Fr. Keller gave a picnic Saturday and Mr. Buhrmann went to Azora from St. Louis to assist the priest. He took charge of the shooting gallery.

Joseph Horst, a farm hand, went to the gallery to try target practice with a rifle. Mr. Buhrmann sat inside the rail. Horst had difficulty in pulling the trigger. He pointed it carelessly at Mr. Buhrmann's head and worked at the trigger, the gun exploded and the bullet entered Mr. Buhrmann's brain.

## Saw Things Optimistically.

They are telling an ante-recess story up at the capitol bearing on the strenuous session now in progress. There had been an informal meeting of some of the Nestors just before the holidays and they were looking over the situation and figuring what if anything besides passing the appropriation bills could be done at the short session. The general feeling was pessimistic for it was admitted that neither the house nor the senate was fully in accord with the president on all his propositions. But finally one of the members arose and said, gravely: "Gentlemen, away with these gloomy prognostications. I think the outlook for business is all right. We will get through with everything we came together for. We have done well already and we will do better. We have already saved the dictionary of the United States, and before we get through, and if I don't think we will manage to save the constitution."

## MUCH IN LETTERS

SHOWING IMPORTANCE OF BUSINESS CORRESPONDENCE.

In These Days of Fierce Competition the Man of Affairs Knows He Cannot Afford to Offend Correspondents.

"To be sure," said the business man, "in writing letters we always endeavor to make them satisfactory to those to whom we write; but if possible we should be more than ever careful to do this in writing to correspondents whom we may have occasion to address but once."

"You see persons to whom we are writing frequently come to know us, and they judge us by what we are and make due allowances for the lapses or incidental shortcomings inseparable from the conduct of any business; but the person to whom we may have occasion to write but once judges us by that identical letter, by which, in his or her estimation, we stand or fall."

"If to such a correspondent we send a brusque letter it may wound or offend, and the person receiving it will keep away from us thereafter if he can; whereas, if we send him a polite and well considered letter, one inspired, evidently by a desire to be courteous, the recipient will be pleased and his disposition will be friendly."

"So when we have occasion to write a letter, perhaps the first we have ever written to a customer, and keeping in mind that we may never have occasion to write another, we give thought to the impression it is sure to make for good or ill and endeavor to make it one that shall please. It may be about a very slight transaction, involving an amount so small that what with the time and labor we bestow upon it we shall come out at a loss."

"But we don't take that into account at all. What we want is to have this customer know and believe that we are endeavoring faithfully to treat him with fairness and courtesy. We want to keep him, not to drive him away."

"We may lose on this individual transaction with him, but it isn't this transaction alone that we must have in mind. Many a good customer who might otherwise have quit has been saved and kept as a customer and made a friend of by one sound and polite letter written when the occasion arose."

"And we certainly want friends. If we depended for trade solely on people who came and bought something once, but never again, we shouldn't do much business. What we want is to hold all the customers we can, to keep them and to build up a trade to which we can add that transient custom, and we certainly never do want to drive away a customer by writing to him an impatient or careless letter."

"An interesting thing about the writing of polite, considerate and

thoughtful business letters is found in their reaction on the writer. Even if he has been writing such letters from business reasons only he will soon find himself imbued with their spirit; he will come to find as much satisfaction in writing them as the persons addressed do in receiving them. In short, if he were not already so, he will find himself sincerely desirous of being polite, considerate and obliging, and in this he will have made more than one long step ahead, for as he is so will his subordinates come to be."

"They will take their cue from him, and how much they can or help him! By them is his ill or his good fortune increased and multiplied."

"Truly it is good seed, wherever sowed, the really good business letter, and it is fruitful in proportion to the amount of seed scattered, when sowed in the mind of the customer to whom you may have occasion to write but once."

## PENSION FOR PRINTERS

Care of Aged Members to Be Settled By Referendum Vote.

Hot Springs, Ark., Aug. 19.—After one of the most important conventions ever held the fifty-third annual meeting of the International Typographical Union adjourned at noon Saturday to meet next year in Boston.

During the morning session a resolution was adopted approving and referring to a referendum vote a plan for pensioning members over 60 years of age who have been in the union for twenty years and are disabled from earning a livelihood. The amount of benefit is to be \$4 a week.

"We never regret of eating too little," was one of the ten rules of life of Thomas Jefferson, president of the United States, and the rule applies to every one without exception during this hot weather because it is hard for food, even in small quantities, to be digested when the blood is at high temperature. At this season we should eat sparingly and properly. We should also help the stomach as much as possible by the use of a little Kodol for indigestion and dyspepsia, which will rest the stomach by digesting the food itself. Sold by Arlington Pharmacy.

## MAY FORCE W. J. BRYAN

CONFERENCE SAID TO HAVE DECIDED HE CAN'T BE "PASSIVE" CANDIDATE.

## THE "FOLK MEN" ARE TO "PRY" HIM

Leaders Plan to Transfer Delegation if the Nebraskan Insists on Maintaining Present Silence.

New York, Aug. 19.—The Herald today printed the following dispatch of the 18th from Chicago:

William J. Bryan will not be permitted to be a "passive" candidate for the democratic presidential nomination. Before the democratic national committee meets in December to fix the place and date of the convention, Bryan will be forced practically to declare himself an active aspirant for the nomination.

This was the decision reached in Chicago in a conference, in which National Chairman Thomas Taggart and Roger C. Sullivan, Illinois committeemen, had a prominent part, some of the details of which leaked out today. In the conference were representatives of enough elements of delegates strength to make the ultimatum good.

Governor Folk of Missouri, is to be the wedge used to pry Bryan off of the bid which has kept possible candidates of democracy quiescent and the penalty for refusal to abide by the will of the delegations of Illinois, Indiana and the "conservative" states which recognize Chairman Taggart as their spokesman from the Bryan column to some other candidate, probably Governor Folk, himself. The proposition, it is understood, is to have authoritative announcement made from Missouri, that Folk is ready to get into the presidential race.

Then a deputation of Folk's friends from Missouri will put it up directly to Bryan and ask him to declare himself for the Missouri governor. A refusal to accede on the part of Bryan, according to the plans as now made, will be considered as tantamount to a declaration of war and Bryan will be forced to fight for the Missouri delegation.

That Governor Folk is ready and willing to get into the presidential contest is taken as assured by the politicians, who understand that he is not preparing to battle Senator Stone for the Missouri senatorship.

Bryan may be compelled to show his cards in another way before the national committee meets. There is no doubt under existing conditions that Chicago is the choice of a large majority of the national committee for the 1908 convention, and preparatory plans are now under way for the arrangements. The doubtful quantity as to Chicago winning when the national committee meets in December is furnished by Bryan himself.

Should the Nebraskan maintain the position that he has assumed that Roger Sullivan must get clear out of the national organization, it is presumed that he will not favor Chicago, the Sullivan stamping ground, as the place for the convention. An attempt on his part to line up the national committeemen for Cincinnati, possibly, or any other city than Chicago, will be taken immediately as an unfriendly act by the conservatives and precipitate the trouble for the Nebraskan a bit earlier than now expected.

## "WAIT," SAID THE COURT

Woman Misunderstood, Married Again and Is Arrested.

Columbus, Ind., Aug. 19.—Because Mrs. Clara Thorpe did not pay much attention to the judgment rendered by the Rush circuit court when her case for divorce against her husband, Daniel Boone Thorpe, was tried last September, she is now under arrest on a charge of bigamy. She was arrested here by Sheriff Cox on a warrant sent from Rush county.

When the case was tried the judgment of the court was that the couple would be permitted to reunite at the end of three years, if they chose to do so.

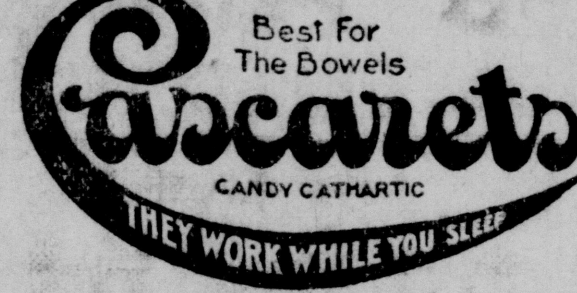

The wife, however, did not choose to do so, but instead, on January 28, last, she married William Levi at Greensburg, who was an aspirant for her hand before she married Thorpe thirteen years ago.

Since last April the couple have resided here, apparently under the impression that they were legally married. When arrested the woman said that she did not pay much attention to the judgment of the court when the case was tried, but was under the impression that she had been divorced from her husband.

## TO CHECK CRIME WAVE

Upheaval of New York Detective Force Planned.

New York, Aug. 19.—Police Commissioner Bingham, convinced that a wave of crime is rolling over New York, and that the police system that has fought him so tenaciously is in the main responsible for the conditions, has determined to deal a crushing blow to "the system" when, on September 1, the detective bureau at No. 309 Mulberry street will be torn asunder and massed into six platoons.

The same shaking up of the detective force in Brooklyn will also take place. The Italian detective bureau, under Lieutenant Petrosini, will not be interfered with. There are now detective bureaus in the Bronx, Queens and Richmond. All of these will be strengthened, but will be under a chief just as they are at present.

In slicing the detective forces into many parts Commissioner Bingham expects to deal a death blow to the police system. There is much interest, and it may be added, much uneasiness, as to who will be appointed chief of the Tenderloin detective branch.

Commissioner Bingham got the idea of splitting up the detectives from Deputy Commissioner Woods, who was appointed to his place after studying conditions in Scotland Yards and Paris. Mr. Wood learned that the detective forces in both London and Paris were separated just as the New York forces are to be separated.

## 'PHONE GIRL VERSUS WIFE

Rich Lawyer Is Sued for \$10,000 by His Husband.

Newcastle, Ind., Aug. 19.—Clarence H. Beard, of this city, attorney and capitalist, said to be worth half a million dollars, has been sued by Carl Hetherington for \$10,000. Hetherington alleges that Beard alienated his wife's affections. The parties to the suit are prominent in social life here. Mrs. Hetherington has filed suit for divorce, charging cruel treatment.

A telephone girl is said to have furnished Hetherington with information that his wife and Beard frequently used the 'phone to make engagements. In his suit for damages Hetherington charges that Beard induced Mrs. Hetherington to meet him after midnight and that they enjoyed rides together, remaining out until late.

Both Beard and Mrs. Hetherington deny the charges made against them. Beard is Mrs. Hetherington's attorney in her divorce suit and he says that his association with her has been only as her counsel.

## A WOMAN SAVED A TRAIN

AND FOR HER HEROISM SHE WAS PRESENTED WITH THE SUM OF \$108.35.

## WERE 250 PASSENGERS ABOARD

Her Recompense Was 43 1/2 Cents for Each Life She Saved From Destruction On the Santa Fe Near Hart, Mo.

Bucklin, Mo., Aug. 18.—A modest heroine is Mrs. Minnie Houdeshell, and modest is the reward which she has so far received for saving from wreck a transcontinental limited train carrying 250 passengers.

Her recompense was \$108.35, just 43 1/2 cents for each life which she snatched from destruction.

But Mrs. Houdeshell does not complain. She smiles and says:

"You know the passengers gave me all the money they had with them at the time, and I haven't heard from the railroad company yet. I may get more money, but it will be all right if I don't. I wasn't thinking of money when I kept that train from going into the creek."

Mrs. Houdeshell had never heard of the Carnegie medal for bravery until a correspondent, sitting in the little weather-beaten track-side tent where she lives, told her she had been suggested as a candidate for it.

Her expressive brown eyes danced. Her hand stroked the dark hair of her 7-year-old son, Ernest, who stood at her knee. There was a plaintive catch in her voice as she said:

"It would be nice to get that medal. My boy would be so proud of it, and my husband would, too."

Very motherly and wife is this woman of 28, who built a bonfire with coal oil to prevent Santa Fe train No. 4, the California limited, from plunging through a wrecked bridge near Hart, Mo., 200 miles from St. Louis, last Sunday morning.

"I thought of the women and little children that would be killed, especially the little children," she says. In the darkness of night Mrs. Houdeshell's deed of heroism was done.

## MISSOURIANS TO ASSIST

Congressmen Hamlin and Clark to Speak in Oklahoma.

Guthrie, Okla., Aug. 19.—The Democratic state campaign has opened up in earnest with practically all of the candidates for state offices in the field, in addition to several outside speakers.

Two of the distinguished speakers from outside the state, from whose visit especially good results are expected are Congressman Champ Clark and C. W. Hamlin, of Missouri, both of whom will speak in the new state during September.

Champ Clark will speak in Shawnee on September 7, Oklahoma City September 9, Paul's Valley and Ardmore September 10, Durant and South McAlester September 11, Muskogee September 12, Salisaw and Stillwell September 13.

Congressman Hamlin will make six speeches in the Territories, three of the dates to be determined by the congressional committee in the First district and three by the Third district committee. He will open his tour on September 12 in the Third district.

## Unabashed Peterson.

Although blamed for epidemics and sundry other evils, milkmen sometimes have a redeeming sense of humor. At least a story told by Prof. John C. Scott of Northwestern university would indicate it. Professor Scott's milkman also furnishes his family with eggs. One morning this man, whom the professor in telling the story called Peterson, brought half a dozen eggs to the house. When Mrs. Scott had occasion to use them she broke one after another, but each proved to have outlived its usefulness. Mrs. Scott's just indignation arose until by the next morning it had reached a high pitch. Incensed further by the fact that there were no eggs to prepare for her husband's breakfast, she was ready to give vent to her wrath when the offending milkman arrived.

"Peterson," she said, transfixing him with a stern glare, "all of the eggs you brought yesterday were rotten." "Yes, ma'am," the philosophical Peterson replied, "but were they satisfactory in other respects?" The professor's wife fled.

## DIVORCE, NO ALIMONY

Demanded by Mrs. Jungbluth in Her Amended Petition.

Louisville, Ky., Mrs. Amantia Jungbluth, who filed suit for divorce and \$200,000 alimony against the wealthy turfman, Karl Jungbluth, last spring, making charges of a sensational nature, has, through her attorneys, filed an amended petition, and to all intents and purposes dropped the former petition.

The latest petition is brief and formal in its terms, merely setting up the statutory allegation of abandonment for one year, and asks absolute instead of partial divorce and says nothing about alimony.

Mrs. Jungbluth was before her marriage Miss Amantia Smith, sister of George Weissinger Smith. She was married to Jungbluth April 20, 1886. She has resided on her husband's farm in Oldham county, while Jungbluth has lived in New York for several years.

She alleged in the former petition that Jungbluth pretended to believe slanderous charges made against her by discharged servants; refused to see her when she was in New York, and that he had written her that he did not propose to recognize her as his wife. The filing of the suit last spring caused a decided sensation in Louisville and Kentucky social circles.

Attorneys for Mrs. Jungbluth refused to discuss the reason for filing an amended petition or her former claim for alimony, but it is believed that a large sum has been settled on the wife and that she will be allowed to get a divorce without opposition.

The haste was due to the fact that the sea threatened to wash away the old structure.

## WORE ONLY A "NIGHTIE"

Pretty Somnambulist Astride Bicycle at Night.

Ft. Dodge, Iowa, Aug. 19.—The ghost-like apparition of a girl astride a bicycle flitting about the streets after midnight will not startle residents in the East End any longer. For weeks pedestrians abroad late at night have been scared.

Clad in a flowing white garment, with hair streaming behind her and the gas lamps revealing bare feet and ankles, the ghost rider had excited a good deal of interest as well as fright. Several attempts made to follow the rider have failed because the bicycle always disappeared.

Finally a policeman, attracted by a crash and a scream, ran around a corner and solved the mystery. He found a young and pretty girl clad in a thin night dress which had suffered severely when the wheel she was riding struck a brick.

The girl was dazed, but told the policeman where she lived. He escorted her home and started her father, a well-known merchant, who thought his daughter was safe in bed. The girl said she had no recollection of her night rides. She had been flitting about the streets on her wheel and in her night dress asleep.

## SOLD COPY OF A SPEECH

WHICH IS TO BE DELIVERED BY  
PRESIDENT ROOSEVELT  
THE PRESENT WEEK.

## FOR "SPECULATIVE" PURPOSES

Some One in Wall Street Obtained an  
Advance Copy and That Is Why  
Teddy Is Now Up in the  
Air Again.

Armed with advance copies of  
President Roosevelt's speech, some  
of the important banking institu-  
tions in Wall street, set a trap for  
the public by deliberately opening  
down the stock market from 2 to 4  
points, and then advancing it to  
2 to 7 points, says a New York dis-  
patch.

The conspirators who had been  
clever enough to get the presiden-  
tial word in advance followed their  
first selling orders with heavy or-  
ders to buy. They had scooped up  
thousands of shares before the street  
realized that it had been led into  
an ambush. When the truth was re-  
alized an investigation was begun  
which disclosed the fact that the  
newspapers had not yet received  
their copies of the speech.

It was discovered, however, that a  
few persons were in possession of it.  
Before the day closed half the street  
knew that President Roosevelt would  
make a conservative address next  
week. It was a glorious victory for  
the conspirators. It ought to be  
worth at least a million dollars to  
the fortunate politician who conveyed  
it to the powers in Wall street.  
If he gets less than a million it will  
be a gross injustice.

But all Wall street rejoiced in the  
fact that somebody had secured a  
copy of the president's speech, and  
on reading it had decided to buy  
stocks. Wall street is curious to  
know what Wall street will consider  
a "square deal" for the one who stole  
his speech and sold it to Wall street.

Of all the scandals that have come  
out of inside information from Wash-  
ington and Oyster Bay, today's was  
the most outrageous.

It calls to mind the sale of the  
crop report and the speculation by  
high officials in Washington in the  
cotton market. It reminds Wall  
street that the government stopped  
its investigation of the cotton scandal  
as soon as it discovered what it  
would bring out if it continued.

## HAS ONLY ONE BRICKLAYER.

Lone Student in School Founded by  
Andrew Carnegie.

Pittsburg, Pa.—The School of Brick-  
laying, intended to be one of the most  
important departments of the great  
\$10,000,000 technical schools which  
Andrew Carnegie founded here, has  
one scholar. The daily routine which  
the future knight of the trowel goes  
through and the staff of instructors  
maintained solely for him is causing  
much comment.

When Mr. Carnegie founded the  
technical schools he insisted that the  
departments first opened must be  
those for the purpose of teaching  
young men to become expert artisans.  
Bricklaying looked as if it might be  
popular here, and the school of brick-  
laying was the first in commission.  
While other departments were quick-  
ly filled up with scholars the brick-  
laying game didn't seem to appeal to  
Pittsburg's young men, but finally one  
student appeared.

After passing the necessary examina-  
tion Daniel Chisholm was enrolled  
and began his studies at the school  
after paying his fee of \$20 a year. To  
teach prospective bricklayers there  
had been engaged by the school a pro-  
fessor at a salary of \$15 a day and  
an expert bricklayer, who receives six  
dollars, or the union wage.

## BLACK LOCUST.

It Supplies the Best-Lasting Post Tim-  
ber to Be Found.

Black locust is one of the most per-  
sistent deciduous trees that we have  
to reproduce itself from the roots, and  
hence it is essential that one study  
this particular variety so as to know  
the right time to cut it if it is to be  
killed at the root. Gubbing out the  
trees and cutting them down at differ-  
ent seasons of the year has been  
tried. If you want the timber to last  
long in the ground locust should be  
cut in August or September, but if  
you desire to kill the trees they  
should be cut in July and then in Sep-  
tember the stumps should be peeled.  
The next spring an occasional sprout  
will show from the roots. These will  
have to be treated the same as you  
would weeds to get rid of them. The  
black locust, says, Farmers' Tribune,  
is one of the best lasting post timbers  
we have and should be planted out  
on the prairie farms more than it is,  
for this one item of post timber. We  
do not think it will last equal to the  
oak or locust, but it is equal to red  
cedar and can be produced on ground  
at a much lower price than we have  
to pay for posts at the lumber yard.

## Strong Food for Nursery.

Sixteenth century children in Eng-  
land ate very different food from that  
consumed by modern American  
youngsters. The following dietary is  
taken from the Northumberland  
Household Book showing the nursery  
breakfasts at the beginning of the six-  
teenth century: "This is the Order of  
Breakfasts for the Nurcy for my  
Lady Margaret and Maister Ingeram  
Perey every day in the week in Lent;  
Item, a Mandlet (a small loaf of white  
bread), a Quarte of Bere, a Dysch of  
Butter, a Pece of Saltfisch, a Dysch  
of Sprouts or iij White Herring  
Breakfasts of Flesch dayly thow-  
owte the Yere; Item, a Man-  
chet, a Quarte of Bere and iij  
Muton Bonys boiled. On Frys-  
days throw-owte the Yere; Item, a  
Manchet, a Quarte Bere, a Dysch of  
Butter, a pece of Saltfische or a Dysch  
of Butter'd Eggs." Milk seems to  
have been an unknown beverage, but  
the beer of those days was very dif-  
ferent from the modern article, and  
much more harmless.

## Clarity of Thought.

It has often been said that sports-  
men are not as a rule very ready with  
the pen. Yet in the following passage  
from The Field how clearly are the  
salient facts of the case made to stand  
out:

"In October last a case was before  
the magistrates at Swansea, in which  
the defendant, whose dog, it was al-  
leged, had worried certain sheep,  
should be kept under control or de-  
stroyed, under the provisions of the  
dogs' act of 1871."—Punch.

## Countess Dancing for a Living.

A great sensation has been created  
throughout Sweden by the ap-  
pearance on the stage as a dancer in  
national costume of the little  
Countess von Nordenflet, who is only  
12 years old, and whose family,  
through continued misfortune, has  
fallen into evil ways. According to  
a German newspaper the little titled  
dancer will before long appear at  
German, French and English thea-  
ters. She is receiving the magnifi-  
cent salary of \$350 a week

A REVERSED  
ELOPEMENT

By GEORGE HIBBARD

(Copyright, by Joseph B. Bowles.)

As if floating down through the still  
air from some gray tower, the hour of  
five was sounding from the cathedral  
chimes of the big clock on the stairs;  
but already, on the short December  
day, the darkness had fallen. All the  
people staying in the big country  
house were gathered in the hall,  
where the fire burned riotously on  
the hearth. The oldest granddaugh-  
ter sat beside the tea-table, and about  
her, on the arms of chairs, on window  
ledges and even on the floor, loitered,  
lurked and reclined the rest of the  
party.

"But I have told you so often," said  
the nice old lady, as she glanced at  
the group before her.

"And it was so long ago," she urged.  
"I don't care," said the youngest  
granddaughter, who was sitting al-  
most at her feet; "I love those dear  
old times, when everything was so  
picturesque and romantic."

"Yes," said the nice old lady,  
thoughtfully, "I did elope." Then she

## "We Are Going to Be Married at Once."

laughed. "It was a curious elopement.  
I don't believe there was ever one  
quite like it before or that there has  
been since. A reversed elopement.  
That is what I call it, my dear."

"Tell us," urged one of the young  
men, earnestly.

"Well," began grandmother, "when  
I told my papa of my engagement he  
was very angry."

"Engaged!" he cried, angrily. "Mar-  
ried! Never!"

"Of course," I answered, dutifully,  
"I should not think of doing it without  
your consent."

"Then this marriage will never  
take place."

"I smiled at him.  
"How can it?" he asked, defiantly.  
"Because you will consent, because  
I'll make you," I answered, confidently.

"You'll see this time," he replied,  
with conviction.

"You'll see," I answered, just as  
confidently.

"You promise," he said, "that you  
will not marry this man without my  
approval?"

"Yes," I answered, promptly.

"He nodded in a way that I did not  
understand.

"Alec and I had arranged that the  
next morning he should make the for-  
mal request for my hand. You may  
imagine my surprise when a note, ad-  
dressed in papa's handwriting, was  
given to me as I came downstairs."

"My dear," the note ran, "I find that  
I am unexpectedly compelled to go to  
town, and take the next steamer sail-  
ing. You need not feel the least anx-  
iety because of my sudden departure,  
and you must remember your promise.  
 Lovingly, Your Father."

"Oh, the dear old fox! Oh, the  
darling coward!" I exclaimed. But I  
was not at all pleased with him then  
for running away.

"Indeed I was very angry. I saw  
just how he had caught me, for he  
knew, of course, that I wouldn't break  
a promise when once I had given it.  
He knew that I could twist him round  
my finger if I could reach him. Now  
he had slipped out of my hands alto-  
gether. Oh, I was furious! When Alec  
came down, I laid the case before him  
in indignant tones.

"Of course, we can wait," I con-  
cluded, doubtfully.

"Not at all," he said, in a tone that  
made me jump. "We are going to be  
married at once."

"But my promise," I gasped.

"He frowned.  
"Of course, you must keep it."

"I nodded.  
"You're sure that you can make  
your father give in, if you can talk to  
him?"

"Absolutely."  
"Then we'll find him, and you'll  
make him consent."

"But he's gone!" I cried. "He's  
going to sail to-day."

"He's only been gone a few min-  
utes," Alec replied. "We can catch him  
at the station. The train may be a  
little late, for it is often late. There's  
an automobile all ready at the door."

"Oh, one of those dear, rumbling  
bumbling old automobiles!" interrupted  
one of the grandchildren, clasping  
her hands, ecstatically.

"We reached the station platform  
just in time to see the train disappear

### A HUG AND A KISS

Caused Boy to Flee, After He Had  
Rescued a Girl.

New York, Aug. 19.—While 200 children of the Hebrew Sheltering Guardian society stood on a bank of the stream crying and wringing their hands, and a man was taking off his clothes preparatory to going to the rescue of a little girl, Lewis Willing, 11 years old, an inmate of the society's home, sprang into Cromwell's creek and saved the girl, Rosie McGowan, 13 years old, of No. 219 West One Hundred and Thirty-fourth street, who had fallen into the water. Although not nearly as large as the girl and not a very good swimmer, he struck out boldly toward her. He seized her and swimming with one hand, he kept his grasp on the girl with the other.

After a hard struggle he managed to draw near the bank, and when Policeman Stake, of the Highbridge station, arrived he dragged the two children from the water.

When Rosie had recovered somewhat she threw her arms about the boy's neck and kissed him, which embarrassed him so much that he fled. The father of the girl, Hugh McGowan, says he will find a suitable home for the lad and will bring his act to the attention of those in charge of the Carnegie hero medal fund.

### ALARM CLOCK AT MIDNIGHT

Suddenly Took Away the Blindness  
of the War Veteran.

Parkersburg, W. Va., Aug. 19.—Totally blind for four years, David Risle, aged 65, a veteran of the civil war, had his sight restored to him a few days ago.

He was in bed asleep when an alarm clock at the hour of midnight suddenly went off, and, suddenly waking, the old man could not believe his eyes, for he could see everything in the room.

Risale had been drawing a pension of \$50 a month for blindness, but he is glad to make the exchange of money for sight.

## REGARDING RAILROADS

INSPECTING MISSOURI PACIFIC  
TRACK IN STATE OF  
NEBRASKA.

### COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From  
Various Sources for the Benefit  
of Democrat-Sentinel  
Readers.

Well-dressed and substantial-looking men seen counting ties on the Missouri Pacific railroad track east of Lincoln yesterday proved to be the three members of the Nebraska railroad commission—Dr. Hudson, J. Winnett, Judge Joseph Williams and Henry T. Clarke, says a Lincoln, Neb., dispatch. They were accompanied by J. L. Shepherd, of Fort Scott, Kas., and H. A. Vurpia, of Chicago, vice president of the National Union of Railway Trackmen.

The party was inspecting the tracks of the Missouri Pacific. The Railway Trackmen's union recently filed a complaint against the condition of the Missouri Pacific tracks in Nebraska. Photographs had been filed by the complainant. The party got as far yesterday as Walton, a station nine miles from Lincoln, walking most of the way and the members saw enough to satisfy themselves that the complaint ought to be investigated further.

### "Mike" Crotty Promoted.

M. W. Crotty, first trick train dispatcher for the river route division of the Missouri Pacific at Jefferson City, has been promoted to chief dispatcher for the same road, with headquarters at Van Buren, Ark., and is here today shaking hands with friends preparatory to going to his new assignment. His successor will likely be Dispatcher Williams, now working one of the tricks at the state capital town.

Mr. Crotty, like Jack Bowers, another train dispatcher, recently promoted to chief dispatcher at Omaha. He is an expert telegrapher, a competent and efficient dispatcher, and never "loses his head" when derailments and wrecks are liable to excite the ordinary train dispatcher.

### Suicide of a Trainman.

Reuben Tinsely, the young brakeman charged with robbing a Wabash freight car in Carroll county and bringing stolen property into Randolph county, shot and killed himself at Moberly about 5 o'clock Sunday morning.

Tinsely was well connected in Mexico, Mo., and his father and grandfather, who reside there, arranged for his bond in Randolph county and it is supposed were arranging for his bond in Carroll county.

### Promotion for Firemen.

After several years' coal heaving out of here on the Missouri Pacific line, twenty-five locomotive firemen are being made engineers, says Saturday's Fort Scott Tribune.

Master Mechanic Long stated this morning that the increased work made it necessary to increase the forces in all departments and twenty-five "talow pots" will be made throttleleers.

This will be brought about just as soon as the company can hire a number of new firemen.

### Edgar Holland Resigns.

Edgar Holland, for eighteen years employed in the baggage room of the Missouri Pacific here, has resigned, effective within a few days, and soon afterward he will accept a clerical position in the storeroom at the new shops. His successor is unnamed.

Mr. Holland entered the employ of the Missouri Pacific on Feb. 1, 1890. Thirteen years later he was promoted to night baggage master, and has ably filled that position since.

### Branch Train Was Late.

The Lexington branch train, due here at 10:30 a. m., arrived two hours and forty minutes late today.

The train was delayed thirty-five minutes out of Myrick.

At Sweet Springs an arch bar on the engine broke, and engine No. 855 was sent from here to bring the belated train to this city, arriving at 1:13 p. m.

### Brakeman Crushed to Death.

Harry Frazier, a brakeman on the Missouri Pacific railroad was killed Saturday at the Missouri Pacific depot in Carthage.

He was caught between the bumpers of two passenger coaches and crushed to death. He was 25 years old and leaves a widow and one child.

an ultimatum to the Phelps-Dodge interests, that if the proposition to buy the road from Nacozari, Mexico, to Douglas, Arizona, is not accepted by September 1, the Southern Pacific will construct a parallel line.

In anticipation of the rejection of the offer, the Southern Pacific is already preparing to put a force of engineers to work.

### A Son Born On Sunday.

Born, Sunday, August 18, to the wife of W. A. McVey, a Missouri Pacific shopman, who resides at 1221 East Fourth street, a son who tipped the beam at exactly ten pounds.

Mother and child are reported to-day as doing nicely, hence the happiness of "Pa" McVey.

Ollie Fowler, chief dispatcher for the Katy, went to Walnut, Kas., this morning to visit relatives. Frank Brown is doing the chief dispatcher's work.

J. W. McAdams, a Katy conductor, returned over the Missouri Pacific today from a three weeks' visit at St. Paul, Duluth and other northern cities.

Frank Pearson, a Missouri Pacific fireman, arrived here from St. Louis Sunday for a brief visit with home folks. He will return to the Mound City tonight.

C. M. Winner, a Missouri Pacific conductor, returned this afternoon from St. Louis, having gone there last night in charge of a train load of soldiers, run as second No. 8.

Marc Davidson, an extra conductor out of St. Louis, brought train No. 21 here Sunday, and returned to the Mound City on No. 22 today, running for "Bob" Richards, who is laying off.

C. C. Clayton, traveling accountant for the Missouri Pacific, and family, went to Hermitage and Fairfield this morning on a vacation trip after spending Sunday with his brother-in-law, W. S. Dent.

Missouri Pacific train No. 1 was brought here by a "double-header" Sunday, engines Nos. 5519 and 6508 doing the work, while No. 3 this morning also had two engines here, Nos. 7508 and 6501 doing the work.

Conductor H. N. Reid and Trainman C. S. Moore, representing the O. R. C. and B. of R. T. of the Katy in a conference with company officials in St. Louis, returned here last night, after a visit over Sunday with their families here.

Walter Merrifield, trainmaster for the Missouri Pacific, who for the past fifteen days has been sojourning at Raton, N. M., returned home Sunday, looking hale and hearty and much refreshed by his trip. Mrs. Merrifield and daughter, Miss Josephine, will prolong their trip several days.

J. W. McClain, city passenger and ticket agent of the Missouri Pacific, went to Leavenworth, Kas., this morning to attend the funeral of Jos. H. Lyon, general western passenger agent of the company, who dropped dead there of Saturday of heart failure, while preparing to go to Kansas City, aged 67 years.

## CHEWED BRIDE'S NECK

To Show How Much He Loved Her—  
Divorce Suit Followed.

Because he bites her to accentuate his affection, Mrs. Mattie Kagway has asked the Superior court of King county to grant her a divorce from Hecker Hayway and \$60 a month alimony, says a Seattle, Wash., dispatch.

Mrs. Hagway says the first intimation she had that her husband was a biter came immediately after the wedding ceremony, May 19, 1907. While delivering the customary salutation he leaned over and took a chunk out of her neck. The wound was painful, but she took it as a product of playfulness.

But he repeated the operation on the evening of July 6, after he had been out with a party of friends. Later in the month, after they had returned home from the theater, he asked how she enjoyed the play and at the same time bit her right ear. This time she kicked, but he only leaned over and chewed the other ear.

The statement is made in the complaint that some of Mrs. Hagway's friends had suggested that Mr. Hagway have his teeth pulled out in order to make him harmless, but she expresses the belief that he "would procure a set of false teeth larger and stronger than the ones he has now and lapse into his former habits."
